

**Melissa Coryell**

Melissa's position as the assistant teacher in the 3's class allows her to explore her passion for teaching children. She loves to see them discover new things both in and out of the classroom. For many years, she has taught young children in the Hendersonville community. It has allowed her to see them grow into adults and it brings her great joy to meet them out in the community.

When she is not teaching, she enjoys being able to spend time with her five children and husband. They love concurring new adventures as a family!
